

Gabriel's Stained Glass

I wanted to draw the design because I like exquisite designs such as diamonds combined with squares to make great looking stained glass. I first saw stained glass in the show The Simpsons because of the church. I saw more stained glass when I saw more movies with churches in them and when I watched a video about how to make it.

Linear Equations used to make the design

$$y = -1x + 5$$

$$y = -1x$$

$$y = -1x - 5$$

$$y = -1x - 10$$

$$y = -1x + 10$$

$$y = 1x + 12$$

$$y = 1x + 6$$

$$y = 1x$$

$$y = 1x - 5$$

$$y = 1x - 10$$
